

CHUANGLAN

M MENGLAN GROUP

Energy-saving Environmental Friendly Healthy

We, Jiangsu Chuanglan Solar Air Conditioner Co., Ltd the manufacture of DREAMLAND brand name air purifier, confirm that the UV lighting we are using is without harm to human body.

The UV lamp we use, which wave length is 254nm, is specially used to destroy the DNA or RNA of the bacteria. In our product, the UV lamp is fully concealed inside the product. Thus, there is no direct contact of user from UV lighting, which can prevent the harm to skin.

UV lighting 240~280nm length is not giving heat. And it will only make harm to human skin when its long hours directly contact.

Therefore, we confirm that the air purifier with UV lighting function is safe for home, office and school application.
